Campaign To-Date

\$24,201,302.23 raised—advancing the new Center for Women & Families and our goal that no single woman or family with children sleeps on Orlando’s streets.

Key Milestones

- General contractor selected & approved: end of December
- Phase One construction begins: June 2026

Solid Foundations (Now)

- Nursery (ages 0–5): accredited early learning and care.
- Youth Program (ages 5–17): connection, life skills, career & wellness exposure.
- Year-round, trauma-informed care with summer full-day programming, field trips, and hands-on learning—so parents can focus on work and housing.

Strong Building Blocks (New Center)

- Expanded youth services with age-specific programs and mentorship.
- Larger outdoor learning & play areas for a safe, inspiring environment.
- Capacity growth: serve 40–50% more children; parents sustain work/housing; school stability for kids.
- Day Care Center expansion: licensed capacity from 38 up to 54 for high-quality early childhood care.

Lasting Impacts
