In each issue, we'll be taking a closer look at the crucial services that the Foundations Project will make possible. In this first edition we are highlighting the most impactful upgrades to the new CWF.

## Strong Building Blocks

- 2,900 shelter guests will be placed in permanent housing. An increase of 86%.
  - 32 bridge housing units. An increase of 300%.
- 50% reduction in individuals being transported to a hospital.

The new Center for Women and Families will feature a kitchen and dining hall, increasing annual meal serves by 45%.

The addition of an on-site Health Clinic will allow minor injuries and illness to be treated by a healthcare professional, reducing the burden on emergency services.
